SPECIFICATIONS
W25PHS4216 1120

POC: Technical POC for these Specifications is Richard Burns, Phone Number (215) 365-5095.

SPECIFICATIONS AND REQUIREMENTS:

Contractor is required to overhaul 13 used Alco Diesel Engine water pumps, 5 of which do not have the casing/housing attached. These raw water pumps shall be identified as Alco part number 22500136, and Corps of Engineers Spares Designation number MD-09-15-98.

The Contractor shall completely disassemble, clean and inspect the pumps in preparation for overhaul. The eight pumps casings/housings shall be thoroughly cleaned and clearances measured for wear. Any casing found to

be not useable should be reported to the technical POC with details on the condition that renders the casing not useable. The contractor must notify the Contracting Officer in writing if buildup of any casing is required to render it useable. The notice shall include a price quotation for the proposed work. No buildup of a case should proceed unless and until the Contracting Officer approves modification of the contract to include such work.

Contractor shall then proceed to completely overhaul and repair the water pumps. Worn parts that are normally replaced during an overhaul shall be changed out. In addition, the following parts indicated must be replaced, regardless of condition at disassembly, with genuine Alco replacement parts. Aftermarket parts of lesser quality are not acceptable:

<u>ALCO Part No.</u>	<u>Description</u>	<u>Comments</u>
22511518	Shaft	If superseded, New shaft style shall be used
21512785	Impeller Key	If pump has no casing, tape Impeller Key to shaft
22512811	Impeller Sleeve	
21528781	Thrust Bearing	
2251174	Snap Ring	
2251193	Radial Bearing	
2250037	Water Seal	If pump has old style packing gland, convert to new style seal assembly – Must be Alco/John Crane Seal
22512812	Wear Sleeves	
22512112	Oil Seal	
2251186	Oil slinger	
21510854	Studs	If pump has casing, studs and stop nuts to be installed. If pump has no casing, studs and stop nuts shall be provided bagged and secured to a part of the overhauled pump
21513742	Elastic Stop Nuts	
22511417	Impeller	This Part No. is compatible with Shaft Part No. 22511518. If new shaft style is used, compatible new impeller should be used.
21526729	Gasket Casing to Hub	Installed if pump has casing. If pump has no casing, supply this part safely packed with the incomplete pump.

All drive gears shall be checked for wear and, if clearances and tolerances allow, gear should be reinstalled. If a gear is beyond normal wear tolerances, or if a gear is missing, Contractor shall inform the technical POC and provide a quote for the providing a new gear. Upon approval from the Contracting Officer, Contractor shall install the new gear. Each completed pump must have a useable gear attached and properly secured, in accordance with the Direct Repair Publication (DRP's).

Mechanical seals: The contractor must take extreme caution in preparing and installing the correct/authorized mechanical seal assembly in these pumps. Surface preparation to the pump is critical. The contractor must follow all the guidelines and instructions for preparation as outlined in the DRP's and Crane Seal instructions. Any contamination can render these mechanical seals ineffective and result in leaks.

Each pump unit must be pressure tested using fresh water. Guidance should be sought from Fairbanks Morse/Alco Diesel Engine DRP, which is applicable to the repair/overhaul and testing of the raw water pumps. Those water pump units, which do not have casings/housings, shall also be tested using the casings of the other water pumps. Tests must be completed and if leaks develop or persists, the pump must be repaired again, until the pump successfully passes the leak test. If any pump continues to fail the Corps of Engineers Representative must be notified in writing.

WARRANTY: The contractor shall warrant every raw water pump repaired and overhauled. The warranty shall be based on a number of service hours. This warranty shall be established based on information from Fairbanks Morse/Alco and the DRP guidelines. A certificate of warranty shall be packaged with each pump, with the original

being provide to the Corps of Engineers representative at time of delivery. Each pump unit shall be stenciled or inscribed with the date of repair, month and year only, and the contract number applicable to this job. If the contractor chooses to add additional identification information this is encouraged.

The contractor shall also provide a certificate of conformance for each pump overhauled and repaired. The original shall be provided to the Corps of Engineers representative at time of delivery and a copy packaged inside the box with each pump.

TRANSPORTATION: The contractor shall include in his price the cost of transporting the pumps from the Government's facility at Fort Mifflin, Philadelphia, Pennsylvania to the Contractor's facility, and return of the overhauled pumps (and any used parts) back to the Government's Fort Mifflin facility. Each pump weighs approximately 320 lbs. When shipped. Parts must be packaged and marked in accordance with the requirements below.

NOTE: All used parts, regardless of condition, must be returned to the Government at time of delivery of the overhauled pumps. Used parts can be shipped in package marked "Used Parts – Alco Water Pumps" with no other information required.

PACKAGING: Parts must be packaged for transport as described below:

Each pump must be packaged individually in a wooden crate – that is, one pump with gear attached per crate. Crates must not be larger than 22 inches wide x 24 inches deep x 28 inches high. The crates shall be constructed out of exterior grade $\frac{3}{4}$ inch plywood, with nominal 3" X 3" runners used on the base to allow for lift truck handling and the interior shall be braced with nominal 2 inch thick lumber. Each pump shall be wrapped in a moisture proof protective paper or foil preservative wrapping/barrier material before being placed in the crate. The pump with gear shall be set level in the crate, and adequately blocked, chocked and secured to prevent movement while in transit or storage. The lid of each crate shall be either lag bolted in place or hinged with hasp for locking.

D – Date of repair or overhaul: [month and year only]

E – Quantity per crate: "1 each"

F – Gross weight of entire package

G- Mark Crate if unit has housing or w/o housing

(b) Attention is directed to the Contract Award provision of the solicitation that provides that a written award or acceptance of offer mailed, or otherwise furnished to the successful offeror, results in a binding contract. The Government will mail or otherwise furnish to the offeror an award or notice of award not later than the day award is dated. Therefore, the offeror should compute the time available for performance beginning with the actual date of award, rather than the date the written notice of award is received from the Contracting Officer through the ordinary

mails. However, the Government will evaluate an offer that proposes delivery based on the Contractor's date of receipt of the contract or notice of award by adding (1) five calendar days for delivery of the award through the ordinary mails, or (2) one working day if the solicitation states that the contract or notice of award will be transmitted electronically. (The term "working day" excludes weekends and U.S. Federal holidays.) If, as so computed, the offered delivery date is later than the required delivery date, the offer will be considered nonresponsive and rejected.

52.212-1 INSTRUCTIONS TO OFFERORS--COMMERCIAL ITEMS (JAN 2004)

(a) North American Industry Classification System (NAICS) code and small business size standard. The NAICS code and small business size standard for this acquisition appear in Block 10 of the solicitation cover sheet (SF 1449). However, the small business size standard for a concern which submits an offer in its own name, but which proposes to furnish an item which it did not itself manufacture, is 500 employees.

(b) Submission of offers. Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the SF 1449, letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show--

- (1) The solicitation number;
 - (2) The time specified in the solicitation for receipt of offers;
 - (3) The name, address, and telephone number of the offeror;
 - (4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
 - (5) Terms of any express warranty;
 - (6) Price and any discount terms;
 - (7) "Remit to" address, if different than mailing address;
 - (8) A completed copy of the representations and certifications at FAR 52.212-3;
 - (9) Acknowledgment of Solicitation Amendments;
 - (10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and
 - (11) If the offer is not submitted on the SF 1449, include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.
- (c) Period for acceptance of offers. The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.
- (d) Product samples. When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no

expense to the Government, and returned at the sender's request and expense, unless they are destroyed during preaward testing.

(e) Multiple offers. Offerors are encouraged to submit multiple offers presenting alternative terms and conditions or commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) Late submissions, modifications, revisions, and withdrawals of offers:

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is "late" and will not be considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and--

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) Contract award (not applicable to Invitation for Bids). The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) Multiple awards. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.
